

Java Developer

Java | Spring Boot | SQL | REST APIs | JDBC

Motivated Java Developer with hands-on experience in developing scalable backend applications using Core Java, Spring Boot, SQL, JDBC, and REST APIs. Strong understanding of object-oriented programming, database design, and problem-solving. Passionate about building efficient and maintainable backend solutions.

EDUCATION

B.Tech – Computer Science:	JNTUA College of Engineering (Autonomous), Pulivendula	(2023–2027)
Intermediate (MPC):	Narayana Junior College, Kurnool	(2021–2023)
SSC:	Narayana E-Techno School, Kurnool	(2020–2021)

TECHNICAL SKILLS

Programming:	Core Java, Advanced Java, SQL, JavaScript (Basic)
Java Technologies:	Spring Boot, REST APIs, JDBC, Servlets, JSP
Database:	MySQL, Oracle SQL
Tools:	Git, GitHub, IntelliJ IDEA, Eclipse, VS Code, Postman, Maven
Core Concepts:	OOP, Collections Framework, Exception Handling, Multithreading, JDBC, File Handling, MVC Architecture

PROJECTS

1. Food Delivery Application	May 2026
- Developed a food delivery application with features like user authentication, restaurant management, menu browsing, cart, and order placement. - Built REST APIs using Spring Boot for user, restaurant, menu, cart, and order modules. - Designed and implemented MySQL database with normalized tables and relationships. - Implemented CRUD operations and order management. - Tested APIs using Postman and integrated frontend with backend services. - Used Git and GitHub for version control.	
2. Tic-Tac-Toe Game	April 2026
- Developed a Tic-Tac-Toe game with interactive UI. - Implemented game logic using Java. - Added winner detection, draw handling, and restart functionality. - Used object-oriented programming concepts for clean and modular code.	

INTERNSHIP EXPERIENCE

Java Developer Intern — Saral Vidhya Pvt. Ltd.	May 2026 – June 2026
- Developed backend modules using Java and Spring Boot. - Designed and implemented REST APIs. - Connected MySQL database using JDBC. - Fixed bugs and improved application performance. - Collaborated with developers during testing and deployment phases.	
Java Developer Intern — InternPe	July 2026 – August 2026
- Developed Java applications using Spring Boot and MySQL. - Built RESTful APIs for various modules. - Used Git and GitHub for version control and collaborative development. - Wrote clean, reusable, and maintainable code following best practices.	

CERTIFICATIONS

- Oracle Java Foundations — Oracle - Oracle Java Explorer Badge — Oracle - Java Programming — Great Learning - Java (Problem Solving) Certificate — HackerRank - Java Programming Professional Certificate — Codio	- Oracle SQL — Great Learning - Data Structures — UC San Diego (Coursera) - Microsoft Azure Fundamentals — Microsoft - Oracle Dev Gym – Databases for Developers: Foundations — Oracle - Microsoft Web Development for Beginners — Microsoft
